Dear Mr Wood

West Deeping Quarry

At our Parish Council Meeting on Monday evening this week, we had extensive discussions with many concerned residents regarding the ongoing mineral extraction work in and around our village.

We are fully aware of the recently published Lincolnshire Minerals & Waste Local Plan, with potential sites for future extraction, which highlighted two areas around our village (coded as SG11 and SG17) and along with a significant proportion of our residents, we have raised strong objections to Lincolnshire County Council for these being considered.

I have attended Liaison Meetings at your West Deeping Quarry and the Parish Council is in contact with Maria Cotton, who is currently arranging an informal meeting at our village hall for our residents to attend and to provide more information on the latest developments. However, in advance of that meeting, I would be grateful if you could clarify what Breedon's future plans are for mineral extraction in the West Deeping area in both the short and long term.

I look forward to hearing from you as soon as possible.

Yours sincerely

Cllr David Ward
Chairman
West Deeping Parish Council
