Dear Sir/Madam

ADVANCE NOTIFICATION OF BRIDGE MAINTAINANCE

SCHEME: King street, Manor/Little Meadow Bridge Masonry repairs.

I am writing to inform you that we are currently planning the above highway scheme, which is due to start on 5th August 2024 for up to 4 weeks.

As part of these Bridge works, A full road closure with a signed diversion route will be in place on King Street, south of West Deeping, 50m either side of the structure which can be seen on the attached diversion route. The diversion is required to be 24hrs a day, 7 days of the week (including weekends).

The diversion route for the road closure will be via: High Street, Maxey Road, A15, A1175 (Stamford Road) And then back into West Deeping. The Peterborough city council have been informed of these works and have approved the diversion route attached as it impacts part of their road network.

There will inevitably be some disruption during these works, but we will do our best to keep this to a minimum. This includes:

- Maintaining access for residents and emergency services to nearby property throughout the project.
- Implementing a signed diversion route during closures.
- Doing our absolute best to carry the scheme out as quickly and efficiently as possible.

Your co-operation and understanding during these works will be greatly appreciated. Should you have any specific needs or requirements, or if you'd like further information, please do not hesitate to contact me via email or mobile using the information provided below.

Yours faithfully

Ellis Harden
